

Architectural Technologist – Revit Specialist

Are you an ambitious Architectural Technologist with proven experience delivering large-scale projects (£20m+) in Revit? We're looking for a talented individual to join our growing team, where you'll play a key role in supporting and leading the technical delivery of high-profile developments across multiple sectors.

We provide exceptional design solutions and technical expertise to all our clients. With over 50 years of experience, across a wide range of sectors, our vast array of industry connections, insights, and knowledge, enables us to provide the best service possible to our clients.

If you have a strong passion for design and a comprehensive understanding of architectural principles. This role is for you. You will be responsible for managing projects from conception through to completion, ensuring that all designs meet regulatory standards and client expectations.

What We Offer

- Competitive salary
- Holiday allowance/Birthday Holiday/Long Service Reward
- Excellent career progression and career support, enhanced study funded opportunities
- A vibrant creative and supportive working environment
- Mentoring scheme from the Partners
- Employee Assistance Programme
- Early Finish Friday
- Company days out
- The chance to work on flagship, high-value projects that shape the built environment.
- A supportive studio culture that values growth and career progression.
- Competitive salary and benefits package.
- Ongoing training, CPD, and mentoring to help you achieve your professional goals.

The Role

You'll work at the heart of a collaborative design team, driving forward the production of high-quality Revit models and technical information. From concept design through to site delivery, you'll take ownership of technical detailing, BIM coordination, and model management, ensuring projects are delivered to the highest standards.

This is a role where you'll both support senior team members on major schemes and take the lead on project packages and technical coordination, making it ideal for someone keen to step up in responsibility while working on flagship projects.

What We're Looking For

- Expert Revit capability, confident working in BIM Level 2+ environments.
- Proven experience delivering projects of £20m+ construction value.
- Strong technical design skills with excellent knowledge of UK Building Regulations.
- Experience across RIBA Stages 3–6, with ability to produce clear, accurate technical drawings and models.
- A collaborative team player, with the confidence to liaise with clients, consultants, and contractors.
- Ability to support and mentor junior staff while also stepping up to lead project elements.

Desirable Skills

- Exposure to multiple sectors (commercial, residential, education, and more).
- Experience using Navisworks or similar for coordination and clash detection.
- CIAT membership (or working towards).

If you're passionate about delivering exceptional architecture and want to be part of a forward-thinking, design-led practice, we'd love to hear from you.

Brock Carmichael Architects LLP is proud to be inclusive employer. We provide an environment of mutual respect, with zero tolerance to discrimination of any kind regardless to age, disability, gender, identity, family status, race, religion, sex or sexual orientation. We promote a transparent and fair recruitment and selection process.
